

# NEW FEED

10mm PCB Strip to Wire connector - Custom Lead

IP20

DC  
24V

5  
EXT

Our innovative Mini connectors are compatible with all ECO single colour 10mm strips and designed to fit into even the slimmest aluminium extrusions.

These New Feed connectors are used to create a new run; simply insert the strip and wire into the corresponding terminals and crimp with pliers to pierce PCB components for a secure finish.
