Titan+ Door Sensor
Titan+ Accessory

Benefits

- Adds control functionality to the Titan+ Drivers
- Control all connected lights by opening and closing doors
- Can be retrofit to the Titan+ Driver
- Doesn't impact the wattage of the driver

Key Features

- Detection range 0-5cm
- Included surface mounting bracket
- 2m connection cable
- Cut out diameter of 12mm

UKCA RoHS CE ⚠ FRAGILE 🗑 ⬙ III

Product overview

The Titan+ Door Sensor allows for the activation of all lighting plugged into the Titan+ LED driver with the opening and closing of doors.

With simple plug and play technology, it is easy to add the Titan+ Door sensor to any new or existing Titan+ driver to increase it's functionality and add a synergistic feel to any kitchen.

Perfect for recessing or surface mounting with the included bracket, the Titan+ Door sensor is equipped with a 2m connection cable to allow for flexible installation and seamless integration.

Technical Specification

Voltage	24V
Wattage	N/A
Detection Range	0 – 5cm
Operating Temperature	-20°C to +40°C
Operating Humidity	10% to 90%RH
Cable Length	2M

Mechanical Specification

Product	Dimensions (mm) (HxWxD)	Weight (g)	IP Rating
SE493250	40 x ø11.8	47	IP20

Order Codes
